

Viselda Beqiraj

SUMMARY

As a dedicated software engineer specializing in .NET technologies, I bring a solid educational background with a bachelor's degree in Information and Communications Technology from the Faculty of Natural Sciences in Albania. Additionally, I have further honed my skills by obtaining a Master of Science degree in Software Engineering from the Canadian Institute of Technology. Over my extensive experience in the industry, I have actively contributed to both team and individual projects, showcasing my ability to build applications from inception, design robust architectures, and maintain existing projects with the integration of new functionalities and solutions. Committed to continuous improvement, I prioritize code reusability to optimize development processes and foster a successful and evolving career in programming.

PROFESSIONAL EXPERIENCE CONTINUED

SOFTWARE DEVELOPER

GSL Enterprise Support, Tirana, AL, Sept 2022 – Apr 2023

Tasks:

- Led a pivotal project for a prominent Moving Service in the U.S., overseeing project architecture and developing Web APIs. These APIs synchronized data between drivers' iPads and Microsoft Dynamics 365 bidirectionally, optimizing operational efficiency.

Technologies & tools used:

- .NET Core
- SQL Server
- Microsoft Dynamics 365
- Postman
- Jira

SOFTWARE DEVELOPER

Soft & Solution, Tirana, AL, Oct 2021 - Aug 2022

- Contributed on important government web applications to add new features and functionalities in frontend and backend.
- Implemented new solutions on mobile applications, for e.x. a barcode generator and scanner for governmental documents.
- Implemented multiple libraries, for e.x for advanced document editing in web applications.

Technologies & tools used:

- ASP.NET MVC (C#)
- .NET Web API
- Microsoft SQL Server
- JavaScript, HTML, CSS
- Kotlin
- Xamarin Forms
- Bitbucket

JUNIOR WEB DEVELOPER

Soft & Solution, Tirana, AL, Nov 2020 – Oct 2021

Tasks:

- Responsible of the design/development and functionalities of important government websites.
- Creating virtual machines using LAMP Stack and ensuring they are always secure and up and running
- Monitoring websites traffic

Technologies & tools used:

- .NET
- HTML/CSS
- Bootstrap
- MySQL
- JavaScript
- PHP
- Linux
- WordPress
